WINERY OVERVIEW

Made by Boutinot which encompasses vineyards and cellars in France, Italy and South Africa as well as long standing relationships with hundreds of winegrowers throughout the world. Wines are crafted by both vinifying fruit from Boutinot's own vineyards and by selecting and blending wine from partner growers. Boutinot's dedicated Product Managers (including two Masters of Wine) work hand in hand with experienced and highly talented winemakers and blenders to bring their winemaking philosophy to life. It's their job to ensure all 'Made by Boutinot' wines are crafted to match stylistic ideals of how wine should taste and deliver Boutinot's vision of high quality wines at every price point.

VINEYARD

The Gard region lies at the southern end of the Rhône valley, a river valley which stretches from Lyon in the north to the Mediterranean delta in the south. Guillaume Letang looked specifically for vines which are south-facing, and thus receive the most sunlight, to source the Cabernet Franc grapes for this wine.

TERROIR

The terroir is full of limestone which gives rich yet soft and lightly acidic wine.

TASTING NOTES

Textured and luxurious this is a sophisticated Cabernet Franc from Gard. There is a wild 'after the rain' woodland perfume, with menthol and truffle hints. The palate is incredibly long and layered with bramble fruit, earthy peppery layers and a touch of sweet prune on the finish.
